

I thank all the exhibitors for showing under me particularly as this is my last judging appointment.

My overall impression is that the Breed is in good condition, heads were generally very good some eyes could be a bit darker, coats excellent in the main and none bad.

I looked for barrel ribs which affects front movement and found only a few, some were lacking bone, but again, only a small number.

If my critique seems repetitive, I apologise but I found little to criticise among my winners.
